Peace Ultimatum By Germany to the Allies
SPECTACULAR SCENES
FOLLOWS STRIKE ON
THE BROUGHER DIVIDEComprehensive Treaty
for Central Powers

(By Associated Press)
PARIS, March 26.—Von Bernstorff said: "The armistice will be signed when all the powers interested had accepted the program of peace pro-

posed by President Wilson. Germany is determined to keep in this agreement. She cannot consent to conditions arising from it, and expects all interested powers to do the same. It is not a matter of life or death, especially if the conditions imposed are going beyond the program. German delegates would find themselves in the position of men negotiating with a victor."

Germany's attitude on indemnities was fixed by her acceptance of the note of November 15th, last year, whereby indemnity was accepted for all damages done the civil population of France and Belgium by German armies on. This note admits the payment of no other indemnities.

The liberal work in which was seen the salvation of humanity in President Wilson's principles would be for his discomfiture if peace is not made. Even the higher classes would be driven to despair. Since the middle-class idea has aroused the world's indignation like the peace of nations based on peace and justice. While will have caused the idea to miscarry at the first test. The hope of the peace of all nations of the world is to make common cause against Bolshevism and triumph over it."

Von Bernstorff urged a plebiscite for Alsace-Lorraine and German Austria.

BOLSHEVIKI
AUTHORITY
SPREADING

(By Associated Press)
PARIS (Tuesday), March 25.—The press here are discussing the question of obstructing the early conclusion of peace had before them a map showing the vast extent of Bolsheviki authority, also private reports of grave character concerning southern European regions and around Odessa which have not yet been published.

(By Associated Press)
BERLIN, March 25.—It is rumored, but not confirmed, that former Premier Karolyi of Hungary has been assassinated.

YANKEES FIGHT
IN DEEP SNOW

(By Associated Press)
WITH THE ALLIED FORCES IN NORTH RUSSIA, (Monday) March 24.—The bolsheviki are entreaching and reinforcing infantry and artillery at Polshoia-Ozera and endeavoring to hold this important point. Yesterday the Americans, British and Italians attacked from the west, and the Russians supported by Americans and British from the east. They are fighting under the greatest difficulties as the allied troops are unable to pass the enemy machine gun line. The forces from the east struggled through waist-deep snow at the rate of two-thirds of a mile an hour. American mules are bringing up big guns. An airplane equipped with rammers for alighting on snow bombed Polshoia-Ozera. Allied troops bivouacked along the road leading to that village are using for the first time igloo-like arctic tents. The weather is extremely cold.

SENATOR PHELAN INVITED.
SACRAMENTO, March 26.—The assembly passed a resolution inviting Senator Phelan to address it Monday.

COMPLETING THE FIFTH
STORY OF THE MIZPAH

Manager Joe White is doing his best to avoid turning away guests who have been willing to double up by placing cots in rooms as a temporary accommodation. This morning Mr. White concluded he had to do better by his friends and gave orders for the quick completion of the top floor of the Mizpah Hotel building. The furniture is on the way and every room will be ready for occupancy the moment the decorators leave.

REPARATION FOR WAR
DAMAGES DISCUSSED

(By Associated Press)
PARIS, March 26.—President Wilson and Premier Lloyd George, accompanied by the Paris White House series of conferences regarding questions delaying work of the peace conference. Differences regarding questions delaying work of the peace conference. Differences of opinion which developed since the return of the president to Paris are being discussed fully and frankly. A determined effort is being made in the interest of peace to reach an agreement on broad lines. There is reason to believe reparation for war damages will be one of the first questions sought to solve.

British Reduce
Price of Silver

(By Associated Press)
LONDON, March 26.—The government fixed a new maximum price for silver, effective from yesterday. At current rates of exchange this is equivalent to 95 cents an ounce.

DEPUTY COLLECTOR WILL
ARRIVE FIRST OF APRIL

Thomas J. Lynch, deputy internal revenue collector, was notified today by Justus Wardell that his successor would arrive on the first of the month and take charge of the office so that the incumbent might be released to attend to his numerous pressing mining engagements.

If the Divide speculation continues it will be up to Tonopah to revive the former stock exchange which flourished here in 1902 and was supported on a market that bore no comparison to the present excitement. Last night was the wildest night ever seen in Tonopah, barring none when it comes to discussing stock values, trading and optioning.

GERMANY WILL
NOT GIVE ANY
LAND TO ENEMY

(By Associated Press)
BERLIN (Tuesday), March 25.—"I take the most solemn oath that the government will not surrender one inch of German territory, east or west," said Schiffer, the new financial minister, addressing a crowd Sunday, according to Tages Zeitung.

JURORS DISAGREE
OVER MAIL FRAUD

SAN FRANCISCO, March 26.—A jury trying Major Jeffery, Mason Williams and Mrs. Alys Rogers on a charge of using the mails to defraud, disagreed. They were out 42 hours.

MAYOR WOODMAN'S
CASE POSTPONED

(By Associated Press)
LOS ANGELES, March 26.—The city council has deferred for a week action on the suspension of Mayor Woodman in connection with the alleged inquiry.

SPANISH PROFESSOR
DIES IN BERKELEY

(By Associated Press)
BERKELEY, March 26.—Ramon Jaen, head of the Spanish department of the University of California, died suddenly today.

HUERTA'S COMMANDER
BECOMES SMUGGLER

(By Associated Press)
EAGLE PASS, Tex., March 26.—General Robles, former military commander under Huerta has been arrested charged with smuggling.

ground. The curb on both sides of Main street from Brougner to the middle of the block was crowded. Men holding any of the favorite stocks were tempted by sharp advances to dispose of their holdings but the chief interest was centered on Brougner Divide for which \$2.00 was bid in the early evening. This price was advanced until around 11 o'clock \$2.35 was posted as an open bid. The sentiment was engendered by a telegram from Reno semi-officially announcing that the Brougner had struck large values and was likely to rank with the Tonopah Divide as a producer. The news spread like wildfire and was taken up by every tongue until its circulation induced a mild frenzy with liberal offers for all the leaders. Owing to the fact that Divide Con. adjoined the Brougner and in the direct strike of the ledge that stock was called for as high as 40 and 50c without bringing out any offers.

The brokerage offices were packed to the doors with as dense a crowd as at the busiest hour of the day and clerical forces were doubled in straightening out accounts and clearing the decks for another big day's business. There was no margin reckoning which marked flurries in former years so there was no distressing calls even if it had happened.

BELCHER DIVIDE
IS ALL TAKEN

Subscription books for the Belcher Divide and the Belcher Extension Divide were opened this morning at the office of the company at 508 and 509 Bank building and by noon Ed. J. Roberts announced that he was compelled to restrict allotments. He did not refuse to accept subscriptions but told all comers during the afternoon that they would have to be satisfied with a small pro rata of their demands. With the exception of the Mormon Girl which was subscribed in half an hour among local people there has not been anything like the Belcher promotion as one block of over 300,000 shares was taken by a pool in Philadelphia after the representatives had wired for 500,000 shares. Another large block was placed at 25c. The subscription price was placed at 20 cents. Subscriptions for the Belcher Extension Divide are being filled at 15c.

The Belcher Divide is northwest of the Brougner Divide and bounded on the northwest by the Victory group. The showing is considered the best on the Divide and some of the best engineers who are acquainted with the geology say that the big Divide vein crops on this group which is accentuated by an immense blow-out from which fine values have been taken.

The block of 300,000 shares that was placed in Philadelphia among men who already have important holdings in this camp was on the recommendation of George H. Garrey, consulting engineer of the Tonopah Belmont company. This is regarded as the most successful promotion put out since the Divide sprang into prominence.

that a single bear was found in the camp. The sidewalks were blocked with an endless procession that shuttled up and down and across the street from one office to another and then dropping it at the hotel to see what the visiting magnates had to say. The women were there in large numbers and baby buggies stood out in front of offices as the young mothers left their offspring in the care of some bystander and ventured into the bull pen to watch the latest bulletins. When \$10 was posted for

SECRETS LEAK
OUT FROM THE
PEACE COUNCIL

(By Associated Press)
PARIS (Tuesday), March 25.—It is learned that the government has opened an inquiry into the manner whereby the French press is enabled to keep so closely in touch with the doings of the supreme council.

BROUGHER DIVIDE GETS
HIGH VALUES DRIFTING

The Brougner Divide is in first class ore with the values yielding an average of \$24 which should improve steadily, according to the experience of the Tonopah Divide where there was a steady increase after the ledge had been drifted on. The sample was taken from a full face of ore encountered 20 feet from where there was a strong increase the crosscut. Superintendent Gust Hanson began driving on the vein by circling around from the point where

it was cut on the hanging-wall side, and yesterday afternoon shot into the orebody with better than commercial values. The trend of the vein is in a northwesterly-southeasterly direction toward the estate of the Divide Con.

Unofficial reports state that the ledge is spotted yielding assays from \$40 to \$60, which confirms the belief that a few more shots will disclose high-grade equal to the best found on the upper levels of the parent company.

Greatest Boom Heard
of By Mine Magnate

"The Divide district boom is the greatest mining movement I ever heard of," remarked Charles A. Stoneham this morning before leaving for Reno. "I know something about such matters too, as I have been in the business all my life and am deeply interested in Tintic Standard which I thought was one of the greatest mines in the world. In that property we did not get a sign of ore until after levying 19 assessments when we struck it and have developed to a point where we have \$15,000,000 in sight. That's some mine built it is nothing in comparison with the Tonopah Divide which has opened enormous bodies

(By Associated Press)

PARIS, March 26.—At the first meeting yesterday the president and premiers had before them the latest advice on the military situation in Russia. All data concerning British, French and American viewpoints on negotiation, even a draft of the reparations articles of the peace treaty with a blank space for insertion of the amount. The remaining main obstacle is the Franco-German border

WILSON PLAN
SUITS GERMANY

(By Associated Press)
PARIS, (Tuesday) March 25.—Germany has determined to adhere to the Wilson program in making peace, says Bernstorff in an interview according to a Berlin correspondent of the Temps. He declared that the armistice is based on fourteen points to be regarded by history as a preliminary peace.

AMERICAN OFFICERS
ESCAPE FROM BUDAPEST

(By Associated Press)
WASHINGTON, March 26.—Professor Philip Brown and Captain Nicholas Roosevelt, members of the international mission, succeeded in leaving Budapest safely.

BROUGHER DIVIDE GETS

along the Rhine. Conclusion of a treaty the present week is doubtful.

(By Associated Press)
WASHINGTON, March 26.—A message to the White House from the American peace delegation said greater progress toward peace is being made than appeared on the surface. No details are given.

CONFIDENT
IN PEACE
OVERTURES

(By Associated Press)
PARIS (Tuesday), March 25.—It became known today that a serious effort is being made in highest quarters to join together all peace treaties with Germany, Austria, Turkey and Bulgaria, making one comprehensive treaty in which Germany will be linked with other central powers as their responsible head. While such a step would cause delay, American and British leaders feel the action would save time in the end.

Inclusion of Austria in a comprehensive treaty would be particularly acceptable to Italy, which resented the conclusion of terms with Germany in the document falling to deal with Italy's interests in Austria. The plan has not been finally determined upon but there is a tendency toward its adoption. Should the plan be adopted it is expected that the treaties could be linked together and completed by May 1st.

MAIL WILL BE RECEIVED
EVERY SUNDAY HEREAFTER

Postmaster McQuillan received orders today that mails will be dispatched regularly to arrive at the Tonopah postoffice Sunday morning. The order to distribute the mail is still in abeyance as that has to come from Washington.
